**GENERAL
HEALTHCARE**

Virtual Primary Care

Your health on your terms

You can now see a primary care provider (PCP) with [Client's Virtual Primary Care]. Select one of our in-network, board-certified primary care providers to get check-ups and discuss any health condition as often as you want from anywhere in the United States. Our doctors are available to provide preventative care and treat you for common conditions like colds and flu as well as chronic illness. Your doctor can also provide referrals for specialists, blood work and labs, give you sick notes for school or work, and send prescriptions to your preferred pharmacy.

No more waiting weeks for appointments, driving through traffic, sitting in crowded waiting rooms or getting the run-around to see a specialist. [Virtual Primary Care] is available for online office visits from 8 a.m. – 8 p.m. M-F local time – so you don't have to go to an office.

With [Client's Virtual Primary Care], you can expect:

To stay healthy from home and get care for all your needs from common to chronic health conditions.

Lab referrals, prescriptions, sick slips, and easy to understand documentation, as clinically appropriate.

To message your doctor directly through the message center at any time, at no additional cost.

Extended hours for appointments from 8am to 8pm local time.

Scheduling an appointment is easy.

1. Choose an in-network doctor from the list and choose a date that works best.
2. Answer a few questions in the online form about your basic health history.
3. Confirm your upcoming visit.
4. At the time of your scheduled visit, you will receive a notification with a link to join.
5. Talk with your doctor.
